

WhiteBIT Voucher:

— the easiest way to crypto

Buy our vouchers on trusted marketplaces and deposit funds to your WhiteBIT balance from any part of the world.

WhiteBIT Voucher is a crypto gift card

that allows users to top up
their WhiteBIT balances.

Wherever you are and whatever currency you use, **WhiteBIT Vouchers** are a quick and reliable way to enter the crypto space.

WhiteBIT Vouchers are a part of the WhiteBIT ecosystem

WhiteBIT is the largest European cryptocurrency exchange, catering to both newcomers and experienced traders. Since 2018, the platform has been offering its users safety, transparency, and a robust ecosystem.

How do **WhiteBIT Vouchers** work?

1 Purchase

A user buys a WhiteBIT Voucher on any of our partner marketplaces or WhiteEX.

2 WhiteBIT Code

After the purchase is complete, the user receives a unique WhiteBIT Code.

3 Activation

The code is activated on WhiteBIT, and the funds are deposited into the user's balance.

WhiteBIT Vouchers are:

 **Flexible:** their format, content, and design can be modified.

 **Versatile:** you can select any amount and currency available on WhiteBIT for your voucher.

 **Safe:** the vouchers are password-protected, and they become active only right before the purchase.

 **Simple:** the purchase and activation take less than minutes, and the WhiteBIT website is easy to navigate.

Your key to the world of crypto

WhiteBIT Vouchers are sold on the biggest marketplaces: Kinguin, Eneba, G2A, and many others. Their offline versions are the best way to get crypto for cash. They bridge the two worlds with ease.

Our partners

Since **WhiteBIT Vouchers** are a part of the **WhiteBIT ecosystem**, we can work with a wide selection of reputable partners. Thanks to them, we can issue vouchers with unique designs, conduct activities, and bring attention to marketplaces that sell them.

WhiteBIT Vouchers' superpower: scalability

WhiteBIT Vouchers can be used to top up users' balances on third-party platforms

We have already implemented this solution on white.market, a platform where gamers and investors can purchase CS2 skins. The customized vouchers allow users to deposit money into their white.market balance without the need to exchange crypto and use multiple services.
