WhiteBIT Vouchers allow users to top up their WhiteBIT balance regardless of their country and currency. They are also a great way to tell the world about your token or coin.

WhiteBIT Vouchers are a part of the WhiteBIT ecosystem

WhiteBIT is the largest European cryptocurrency exchange, catering to both newcomers and experienced traders. Since 2018, the platform has been offering its users safety, transparency, and a robust ecosystem.

How do **WhiteBIT Vouchers** work?

1 Purchase

A user buys a WhiteBIT Voucher on any of our partner marketplaces or WhiteEX.

2 WhiteBIT Code

After the purchase is complete, the user receives a unique WhiteBIT Code.

3 Activation

The code is activated on WhiteBIT, and the funds are deposited into the user's balance.

WhiteBIT Vouchers are:

 **Flexible:** their format, content, and design can be modified.

 **Versatile:** you can select any amount and currency available on WhiteBIT for your voucher.

 **Safe:** the vouchers are password-protected, and they become active only right before the purchase.

 **Simple:** the purchase and activation take less than minutes, and the WhiteBIT website is easy to navigate.

The background is a dark blue grid of squares. Various geometric shapes and icons are scattered across the grid in lighter shades of blue. These include a starburst in the top-left, a semi-circle in the top-middle, a heart in the middle-left, a four-pointed star in the bottom-middle, and a semi-circle with a starburst on top in the middle-right. There are also abstract shapes like a circle with three lines extending from it on the left and a stack of circles on the bottom-right.
